A7. Reading and Writing the Time 時間的讀寫

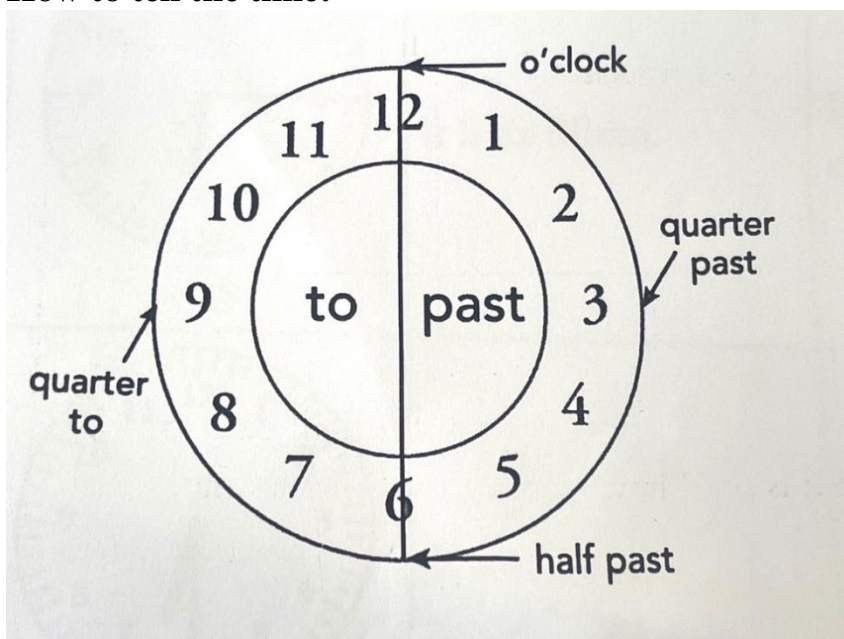

How to ask what the time is:

- *What time is it?*
- *What is the time?*
- *Could you tell me the time, please?*

The common question forms we use to ask at what time a specific event will happen are 'What time ...?' and 'When ...?' For example:

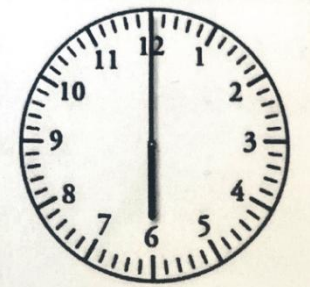

- *What time does the flight to Tokyo leave?*
- *When does the concert begin?*

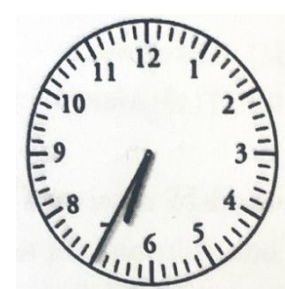

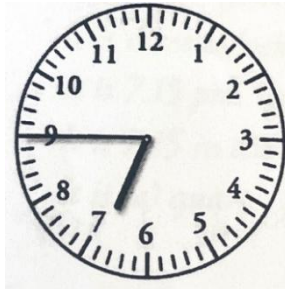

How to tell the time:

There are two common ways of telling the time.

1. Say the hour first and then the minutes. (**Hour + Minutes**)
2. Say the minutes first and then the hour. (**Minutes + 'past/to' + Hour**)

| | 1. Hour + Minutes | 2. Minutes + 'past/to' + Hour |
|--|---------------------------|--------------------------------------|
|  <p>6:00</p> | It is six o'clock. | It is six o'clock. |

| | | |
|--|--|---|
|  <p>6:05</p> | <p>It is six o five. (‘o’s pronounced as ‘oh’.)</p> | <p>It is five past six.</p> |
|  <p>6:15</p> | <p>It is six fifteen.</p> | <p>It is (a) quarter past six.</p> |
|  <p>6:30</p> | <p>It is six thirty.</p> | <p>It is half past six. / It is thirty minutes past six.</p> |
| | <p>1. Hour + Minutes</p> | <p>2. Minutes + ‘past/to’ + Hour</p> |
|  <p>6:35</p> | <p>It is six thirty-five.</p> | <p>It is twenty-five to seven.</p> |
|  <p>6:45</p> | <p>It is six forty-five.</p> | <p>It is (a) quarter to seven.</p> |

| | | |
|--|-------------------------------------|------------------------------------|
|  <p style="text-align: center;">6:55</p> | <p>It is six fifty-five.</p> | <p>It is five to seven.</p> |
|  <p style="text-align: center;">7:00</p> | <p>It is seven o'clock.</p> | <p>It is seven o'clock.</p> |

For 12:00, we can say...

- twelve o'clock
- midday/noon (12:00 p.m. / 12:00 n.n.)
- **Midnight** (12:00 a.m.)

There is no 24-hour system in English. We use '**a.m.**' or 'in the morning' for the morning and '**p.m.**' or 'in the afternoon/evening' for the afternoon and night. For example:

- *It is 3 a.m.* (three a.m.) [Note: We do not use 'o'clock' with 'a.m./p.m.'].]
- *It is three o'clock in the morning.*
- *It is 7:15 p.m.* (seven fifteen p.m.)
- *It is 7:15 in the evening.* (seven fifteen in the evening)
- *It is (a) quarter past seven in the evening.*

We use '**It is**' or '**It's**' to respond to a question that asks for the time right now. For example:

- *It is 3 a.m.*

We use the preposition '**at**' +time when giving the time of a specific event. For example:

- *The bus arrives at a quarter to two.*
- *The concert begins at 7:00 p.m.*
- *The flight leaves at 9:25 a.m.*

A9. Reading and Writing Dates and Years

日期與年份的讀寫

How to ask what the date is:

What's the date today?

How to say the date:

When we say dates in English, we use ordinal numbers. So, for 1st January, we say '**first**' instead of the cardinal number 'one'. We add '**the**' before the number followed by 'of'. For example:

| Date | |
|-------|--|
| 1/10 | The first of October (the day-month format)/ October the first (the month-day format; often used in the US) |
| 15/11 | The fifteenth of November/ November the fifteenth |

How to say the year:

Every year before or after the year 2000 is pronounced as **two numbers**. For example:

| Year | |
|------|----------------------------|
| 1850 | Eighteen fifty |
| 1900 | Nineteen hundred |
| 2000 | Two thousand |
| 2023 | Twenty twenty-three |

How to write the date:

When we write a date in English, we do not need to add '**the**' and '**of**' as we do when speaking. We can add the last two letters of the ordinal number to the day. For example:

| | |
|-------|---|
| 1/10 | 1st October / 1 October |
| 15/11 | 15th November / 15 November |

But when we use the **month-day** format, use **cardinal numbers** (one, two, three) rather than ordinal numbers (first, second, third).

| | |
|-------|--------------------|
| 1/10 | October 1 |
| 15/11 | November 15 |

Commas are added in the **month-day-year** format (often used in the **US**) but not in the **day-month-year** format (often used in the **UK** and other countries). For example:

- *On 26th June, 2009, her son was born.*
- *On June 26, 2009, her son was born.*

When writing a date with the day of the week, use a **comma** after the day of the week. For example:

- *On Monday, 26th June 2009, her son was born.*

How to write centuries:

When we refer to a century in English, we use ordinal numbers.

Many women wore bonnets in the 1800s. (X 1800's)

Many women wore bonnets in the eighteen hundreds.

Many women wore bonnets in the nineteenth century. (X the Nineteenth Century)

Difference between 'date' and 'day of the week'.

What's the date today?

Today is the 1st October/ October 1

What's the day today?

Today is Friday.

Today is the first of October.

Today is 1st October/ October 1.
